1

Outline

- Part writing
- Part writing – Bach
- Part writing – Beethoven

2

Part Writing

- Music is 1% inspiration...
 - ...and 99% perspiration
- Example: **Part-writing**
 - A seemingly simple chore.
 - Add harmony parts to a melody.
 - It's a complex combinatorial problem.
 - The "harmony" and the "melody" ideally become one.
 - Neither makes sense without the other.

3

Part Writing: Bach

- Chorale harmonizations
 - Governed by traditional rules since 18th century
- The chorale tune itself is of little interest.
 - The "harmony" brings it alive.
- Consider this famous chorale...

Translation of Text

O sacred Head, now wounded,
with grief and shame weighed down,
Now scornfully surrounded with thorns,
Thine only crown;

O sacred Head, what glory,
what bliss till now was Thine!
Yet, though despised and gory,
I joy to call Thee mine.

Part Writing: Bach

- Of course, following all the rules doesn't make a good chorale.
 - The technical details must serve a larger purpose.
 - Let's have a second look at the Passion Chorale...
